Average for 5 years		Diphtheria	Scarlet Fever	Cerebro-Spinal	
(1934—1938)				Erysipelas	Fever
	53.6	57.6	11.6	—
1939	13	43	1	—
1940	17	71	3	5
1941	4	47	8	4
1942	8	65	4	—
1943	3	40	1	—
1944	8	68	3	—
1945	7	70	2	1
1946	1	32	3	—

TUBERCULOSIS.

Notifications in				Pulmonary	Non-Pulmonary
1938	15	12
1939	10	4
1940	12	8
1941	10	6
1942	13	6
1943	17	4
1944	10	11
1945	15	13
1946	22	10

MINOR INFECTIOUS DISEASES.

7 cases of Measles were notified.

29 cases of Whooping Cough were notified, and there was one death.

CASE RATE PER 1,000 LIVING OF ACUTE INFECTIOUS DISEASE.

			England and Wales		Tadcaster Rural District
Typhoid Fever0100
Cerebro-Spinal Fever0500
Scarlet Fever	1.38	1.3
Whooping Cough	2.28	1.2
Diphtheria28041
Erysipelas2212
Small-pox0000
Measles	3.9229
Pneumonia8970
Puerperal Pyrexia	8.50	4.3
(Per 1,000 Total Births).					

DIPHTHERIA IMMUNISATION.

Immunisation in relation to Child Population.

Age at 31/12/46 i.e., Born in year	Under 1 1946	1 1945	2 1944	3 1943	4 1942	5 to 9 1937-41	10 to 14 1932-36	Total under 15
Number Immunised	10	266	734	554	290	1577	1092	4523
Estimated mid-year population 1946	1970					3360		

DISINFESTATION.

The County Council has established arrangements at their Welfare Institution at Tadcaster for the treatment of Scabies. The General Practitioners, Nurses and Midwives have been notified of the facilities provided. The number of cases has been relatively small.

WATER SUPPLY.

The Water Supply of the Rural District is derived as follows:—

85.5% of the houses are supplied from three sources—

- (a) The City of Leeds
- (b) York Waterworks Company
- (c) A Deep Bore in the Sandstone at Bilbrough owned by the District Council.

These supplies are constant, and the water is chlorinated. Bacteriological examinations are made at frequent intervals, and in one source for plumbo-solvency.

The quality of the water from these three sources is satisfactory.

2.4% of the houses are supplied from privately owned sources. The water from these supplies is examined bacteriologically at frequent intervals. The quality of the water from two of these sources has intermittently proved unsatisfactory.

12.9% of the houses are supplied from Wells, shallow and deep. The quality of the water from these wells varies in wide degrees.

The water derived from the City of Leeds has been examined for plumbo-solvency with negative results.

Acaster Malbis.—A Scheme for the provision of a piped supply of water for this village (Population 271) has been approved and the work is in progress.

Catterton (Population 53), Healaugh (Population 231)—A Scheme for the provision of piped water for these two villages is being prepared.

SEWERAGE.

The District Council has obtained the services of a Consulting Engineer who has undertaken a survey of the Water Supply and Sewerage arrangements in each of the parishes of the Rural District.

Appleton Roebuck	} A Sewerage Scheme has been prepared and submitted to the Ministry.
Bolton Percy	
Ulleskelf	
Bishopthorpe	} " " "
Copmanthorpe	
Acaster Malbis	

HOUSING.

A survey of the general housing conditions in the Rural District is being undertaken in conformity with the suggestions contained in the Report of the Rural Housing Sub-Committee of the Central Housing Advisory Committee.

The total number of houses classified to date is 2120, out of a total of approximately 5000.

Owing to shortness of staff it has not been possible to increase the number of inspections.

The Housing Schemes which are in various stages of construction at the moment, are as follows:—

Aberford—20 houses—Negotiations still proceeding for acquisition of site.

Austhorpe—8 houses—Tenders submitted to Ministry.

Barkston Ash—18 houses—Tenders submitted to Ministry.

Barwick-in-Elmet—32 houses—Alternative site has now to be selected, as the parish disapprove the site originally decided upon.

Biggin (Swedish)—2 houses—In course of erection.

Bishopthorpe—20 houses—Negotiations are proceeding for acquisition of site. Tenders will be invited shortly for the houses.

Bolton Percy (Swedish)—2 houses—In course of erection.

East Tadcaster—75 houses—These should be completed towards the end of this year.

Church Fenton—20 houses—Site still to be selected.

Micklefield—40 houses—Tenders will be invited within the next week or two.

Saxton (Swedish)—4 houses—In course of erection.

16 houses—Tenders submitted to Ministry.

Sherburn-in-Elmet—58 houses—

8 houses Highfield—In course of erection.

50 houses Moor Lane Site—Tenders invited.

Swillington—50 houses—In course of erection.

Ulleskelf—24 houses—Tenders submitted to Ministry.

50 temporary bungalows of non-traditional character have been erected, and are all occupied; namely, 20 at Tadcaster, 10 at Sherburn, 10 at Scholes, and 10 at Great and Little Preston.

PATIENTS ADMITTED INTO THE ISOLATION HOSPITAL DURING THE YEAR.
